NEW YORK, TUESDAY, JUNE 4, 1901. - COPYRIGHT, 1901, BY THE SUN PRINTING AND PUBLISHING ASSOCIATION.

HE SAYS HE WILL NOT RESIGN SUGAR TRUST PRESIDENCY.

Very Circumstantial Report That Lowell M. Palmer Will Succeed Him-Lively Upward Movement in the Stock Testerday Attribated to Thomas W. Lawson of Boston.

Henry O. Havemeyer, President of the American Sugar Refining Company, said o a Sun reporter last night:

"I have not resigned and am not going to resign. These rumors are all rot."

He had been asked about it because of a very definite and circumstantial report in circulation that in all probability Mr. Havemeyer would tire from the presidency within a few months and that he would be succeeded by Lowell M. Palmer. The report said that a formal announcement of the change would probably be made in a few days. Mr. Palmer is now in Europe, having sailed two or three weeks ago. He will return in about six weeks. He is a director of the company, and is the President of the Brooklyn Cooperage Company, which makes barrels for the sugar company and also for the Standard Oil Company. He is President of the Brooklyn Distilling Company, the Brooklyn Elevator and Milling Company, the City Realty Investment Company, and the Pennsylvania Stove Company, and is a director of the Colonial Safe Deposit Company, the Colonial Trust Company, the Lanyon Zinc Company, the North Side Bank of Brooklyn, the Staten Island Rapid Transit Company, the Theodore Ricksecker Company, the Union Ferry Company and the Wallabout Bank of Brooklyn.

Henry O. Havemeyer became a member in 1868 of the sugar refining company which his family had established. He served a long apprenticeship and learned all there was to know about the actual work of refining sugar. When the company became the American Sugar Refining Com-pany, organized under the laws of New Jersey in 1891, Henry O. Havemeyer assumed the management of the financial affairs of the trust while Theodore A. Havemeyer, who died in 1897, looked after the details of the refinery.

There was a lively time around the Sugar Refining post on the New York Stock Exchange yesterday. On sales that ran up to a total of 148,700 shares the stock advanced to 152% closing at 152% or 17 vanced to 152%, closing at 152%, or 4%, points above the closing price of Saturday. There was a rush to cover short contracts, the indications pointing to the existence of a very considerable bear interest which had become frightened.

had become frightened.

Rumors accompanied the advance to the effect that the next quarterly dividend would be declared at the rate of 2 per cent. The last dividend was 1% per cent. The directors of the company meet to day to directors of the company meet to day to act upon the dividend. In the quarters best informed the movement in usually best informed the movement in the stock was attributed not to dividend prospects, but to Thomas W. Lawson of Boston.

An incident of the day was the announce-

ment that Arbuckie Bros. had made an advance of 10 points in the price of refined sugar, which puts the price of granulated sugar, which puts the price of granulated upon the basis of 5.50 cents a pound, which is still 5 points under the selling price of the other refineries. In the trade the advance was attributed to a rush of orders to buy sugar which the Arbuckles received when they cut the price 15 points last week.

# BRITISH STEAMER SINKING.

Her 1.200-Ton Cargo Got Warm and Shiffed Her Rail Under Water.

ATLANTIC CITY, N. J., June 3 - The Ranale, length, lies anchored two miles off Atlantic City, nearly abreast of Young's Ocean Pier, in a sinking condition. Her port side is submerged until the water rises within two feet of her hatches. The only thing that saves the ship from going to the bottom is the calm Her engines have been put out of service and it is thought that she is half filled with Her dangerous condition is due to a shift in her cargo of asphalt and raw sugar. Unless lighters come quickly there is a possibility that she will sink before morn-No signals of distress were sent up, although the Absecon and Atlantic City life Saving crews immediately recognized her plight. Capt. Steelman of the Absecon crew was on his way to the ship when he picked up her commander, Capt. Hamilton Cassidy

"The Ranald," said Capt. Cassidy, "was bound from Trinidad to New York. She has aboard 1,200 tons of pitch. Three days ago off the Carolina coast the heat made the pitch run and caused the vessel to list, port side. Nothing serious was thought of the accident until we reached the Gulf Stream and discovered that the pitch was steadily moving to the port side of the vessel. We headed for the Jersey coast and thought we would be able to make New York, but when off Atlantic City the engineers were unable to keep up steam. I came ashore to send for lighters to help the vessel into port."

From information brought ashore by Pilot Jesse Yates who went out to the Ranald in a launch, it appears that the steamship is listed at an angle over of forty-five degrees. There appears to be a leak near the smokestack, which members of the crew were endeavoring to stop, Capt. Timothy A Parker of the life savers, who went out with him, attempted to board the Ranald, but the first mate would not allow him on board.

the first mate would not allow him on board. The life saving captain made known his identity, whereupon, he says, the British seamen shouted: "This vessel is not flying signals of distress and under the captain's orders I will permit no one to come aboard except a quarantine officer."

Capt Parker had half swung himself aboard the ship. Then, he says, the mate turned a buildog loose and "sicked" the animal on him. This caused Capt. Parker to retire to the hunch. The Ranald belongs at Glasgow, Scotland. She is under charter with the Trinidad Shipping and Trading Company, and this was her second voyage for the concern. Her cargo is consigned to the Barber Asphalt Company of New York.

Four bags of mail, 100 pounds of second class matter and 60 pounds of first class were brought ashore.

### CHECK YOUR BABY AT THE CHURCH. Jersey Pastor Tries to Make Sunday Worship

Easy for Parents With Small Children. NEW BRUNSWICK, N. J., June 3 -An innovation in church methods is announced for next Sunday at the Livingston Avenue Baptist Church. It is a nursery to be established at the church, where babies will be cared for while their mothers attend the service. The new pastor, the Rev. A. B. Sears, is responsi-

be for the novelty. A. B. Sears, is responsible for the novelty. In the morning he will preach a sermen of interest to parents and invites all parents to attend. As an accommodation to those mothers who have small children who cannot be left alone, he has arranged to have a nursery established in the Christian Encience room of the church. Ladies of the church will be in attendance, will receive the babies and take care of them.

### H: O. HAVEMEYER TO QUIT? ATTACKS AMERICAN WORK IN INDIA. TALLY-HO MESS AT TUNNEL: Sir Alfred Hickman's Reply to Lord George

Special Cable Despatch to THE SUN. LONDON, June 3.-Sir Alfred Hickman M. P., has written a letter in reply to that of Lord George Hamilton, Secretary of State for India, who a few days ago gave the reasons why Americans had been successful in obtaining contracts from the India railways.

Sir Alfred maintains that the American ocomotives in India and the Gokteikh viaduct in the Shan Hills of Burmah, which was built by the Pennsylvania Steel Company, are both expensive failures. The coal consumption of the American locomotives, he declares, is 35 per cent, a mile above the English machines. He quotes from an official report that is very hostile to the American engines, and declares that the Indian railway officials, having used false economy in the original contracts, are now determined to screen the Americans at all costs.

He concludes by declaring that it is not the superiority of American workmanship or American chemical research, but a system which practically amounts to export bounties that gives Americans a great advantage, and he asks the Government to appoint a committee to investigate the whole subject.

### THE AMERICAN PERIL TO EUROPE. French Deputy Says the Country Has Had Warning and Should Take Heed

Special Cable Despatch to THE SUN. PARIS, June 3 .- M. Devourtelles, in the course of a discussion of the Chinese crisis in the Chamber of Deputies to-day, declared that the American danger, which was immediate, was greater for Europe than the yellow danger, which was more remote. The Napoleons of American industry, he added, boasted of their purpose to conquer the European markets, to rob Europe of the trade of her colonies, and to crush European industry. Europe had received warning and ought to take heed. He then proceeded to urge the withdrawal of the French troops from China.

M. Delcassé. Minister of Foreign Affairs. replied that the French would leave as soon as possible. He added that the time was not distant when the task assumed by the European Powers will be fulfilled.

### AMERICANS RECEIVE IN LONDON. Greatest Assemblage of American Milltonaires

Ever Seen There, Says a London Paper. Special Cable Desputch to THE SUN

LONDON, June 4.-Mr. Morris K. Jesup, President of the New York Chamber of Commerce, and the other members of the Chamber visiting here held an informal reception at Claridge's Hotel last evening. The Lord Mayor attended in state, wearing his chain of office. The Daily Mail says it was the greatest assemblage of American millionaires ever seen on this side of the Atlantic. Ambassador Choate will give a dinner in onor of the visitors this evening. Some members of the Cabinet, Lord Rothschild, Sir Thomas Lipton and the Lord Mayor will

be present. The Chronicle prints interviews with some of the visitors regarding their impressions of the trip to Windsor, where they were received by the King and Queen. Mr. J. T Terry, according to the paper, declared: "If you have another woman in the Empire with such a heavenly smile as your Queen I would like to see her."

### STEAMERS PULLED OFF CUBAN REEFS. The McPherson Now in Matanzas Harbor and the Vigilancia in Havana.

Special Cable Despatch to THE SUN HAVANA, June 3.—The transport McPherson which stranded last February eight miles west of Matanzas while on her way to that port from New York, has been pulled off the rocks and is now in Matanzas harbor. The Merritt & Chapman Wrecking Company expects that it will be about twenty-five days before she is ready to be taken to New York The New York and Cuba mail steamer Vigilancia, which stranded in January on a reef about ninety miles from Havana, was towed into Havana harbor vesterday. The vessel now belongs to the underwriters.

### MANIAC CONFRONTS THE POPE. Demands the Crown as Leo's Successor -He's

Now in an Asylum. Special Cable Despatch to THE SUN

ROME, June 3 -A religious maniac named Valentine Paterro made his way into the Vatican to-day and penetrated to the Pope's antercom where he shouted: "The Pope is dead, and I am his successor

Give me the crown. The Pope heard his cries and ordered that he be arrested. Subsequently he was

### placed in an asylum. POWDER MILL BLOWN UP.

Two Employees, Father and Son. Badly Hurt by the Explosions.

MOUNTAIN VIEW, N. J., June 3 -An explosion of about 450 pounds of powder curred at the Laffin & Rand Powder Mills at 8 o'clock to-night Two men, father and son Charles and Fred Dietloff were severely and probably fatally hurt. Two small build ings known as wheel mills, in which the powder is mixed, were the scene of the explosion. It is thought that a charge, as it is called, had just been placed in one mill and that the wheel started some gritty material causing a spark.

The adjoining mill and a car containing some powder also exploded. The explosions occurred in such quick succession that they sounded almost as one blast. Upon the arrival of some of the other employees of the works at the scene, the elder Dietloff was found in a pool of water into which he had tumped, his clothing having caught fire The son, horribly burned, was found a short distance away. He had been blown seventy feet by the explosion

# NEW RIVAL TO STANDARD OIL.

#### Springs Up After Surrender to the Trust of an Independent Company.

CLEVELAND, Ohio, June 2 - One of the strongest enemies of the Standard Oil Company has after a bitter contest given up the fight and sold out to the trust. This is the Scoffeld, Shurmer & Teagle Company, controlling the Cleveland Refining Company and the Scio Refining Company The price of the surrender has not been made public In absorbing one rival the Standard has made another, as several of the stockholders of the Scio Refining Company and the Cleve-land Refining Company, indignant in con-sequence of the surrender, have gone to sequence of the surrender, have gone to work to organize the Great Western Oil Com-pany It has already been incorporated. It will be operated on the same lines as the ormer independent companies

SHERRY'S COACH HORSES TUMBLE IN -ONE KILLED.

Harness Held Them to the Coach and Kept Them From Falling Altogether, but the Of Wheeler Had Put His Foot in a Hole Like a Trap-His Leg Torn Nearly Off.

A noisy stream of water spouting from a broken pipe in the excavation for the Rapid Transit subway at Broadway and Eightyblooded horses attached to the coach Reliance, which runs from Sherry's to the races, and the prancing that followed resulted in the death of the offwheeler, an animal worth \$1,500. The two leaders tumbled over the excavation, but were held up by the harness. Richard F. Carmen, the reinsman, who re cently brought the four coach horses to the city from his stock farm at Huntington, L. I . was driving. With him on top of the coach were Louis Haight, the broker; James T. Hyde, Secretary of the National Horse Show Association, and two grooms. The party had been driving through the Park and around town all the evening to exercise the team. It was 11 o'clock when the accident happened.

Mr. Carmen was driving up Broadway or the car track east of the parkway. On each side of the track there is a narrow strip of roadway and beyond on both sides are the trenches dug by the Subway contractors, On the west side there is a four-foot fence to save wagons from tumbling into the excavation, and an iron girder is supposed serve the same purpose on the other side. Where Broadway crosses Eighty-first street this girder is laid at the edge of the excavation, where the surface is ragged and

irregular. It was here that the horses were frightened and began to jump over a good deal wider space than was safely provided for in building the fence and laying the girders. A hind foot of the off-wheel horse came down hard on the loose soil next to the girder and there happening to be an indentation in the edge of the bank at that point the leg went through the hole between the solid part of the roadway and the girder and the horse was caught as effectually as if he had sprung

Mr. Carmen urged the leaders to go ahead, hoping that they would pull the snared horse out, but to make matters worse one of the front wheels of the coach struck a piece of the fence sticking out from the other side of the way and came to such a sudden stop that the forward horses were jerked back on their haunches and fell over sidewise and backward and went headfirst into the trench. which at that point is twelve feet deep.

The leaders hung in midair, suspended by the harness and were not hurt, but their weight jammed the rest of the outfit up against the horse caught between the girder and the embankment and killed him. leg was cut almost completely off by the edge of the girder. His mate, the nigh wheel horse, tumbled over against his body, but wasn't hurt.

In the meantime Mr. Haight, Mr. Hyde and the two grooms had jumped from the coach at Mr. Carmen's suggestion to save themselves. A crowd gathered and shouted to Mr. Carmen to jump, too, but he would not drop the reins until after his leaders had gone into the pit. Then he got down and superintended their rescue. The harness was cut and the horses dropped to the bottom of the twelve-foot trench A little farther along the excavation was only seven feet deep and beyond that only four. horses were pulled from one level to another and then to the surface.

### A HORSE IN A GROCERY. Entered Through the Cellar and Went Out by

Three men who started out yesterday from the American Horse Exchange at Fiftieth street and Broadway to try a pair of horses in Central Park didn't get to the Park, although it was only nine blocks away, and when they came back they were bound by promise, that is, two of them were, to pay for a grocery store which had been pretty well wrecked by the

According to the police report the first of the three men was A. St. John Boycott, whose uncle was the original Capt. Boycott who made the name famous in the Irish ructions in the sos. A. St. John Boycott is an assistant to W. D. Grand, the auctioneer at the American Horse Exchange, and he had with him Mr. Grand's son and a man named Hallock from Orange, N. J., who, it is said, was a prospective purchaser of the two horses. The three went out in a two-seated road

wagon. The horses, a pair of bays, were spirited, and at the moment they got under the elevated railroad structure at Fifty-third street and Broadway a passing train threw them into a fit of deviltry which made them absointo a fit of deviltry which made them abso-jutely uncontrollable. Despite the efforts of Mr. Boycott and Mr. Grand to stop them they swerved over to the southwest corner, knocked down a newsstand and plunged straight at the open cellarway of Paul H. Haller's grocery store.

One of the horses managed to keep from plunging through the entrance and as the harness broke he got away and ran up Broad-way for three blocks before he was caught by a policeman.

harness broke he got away and ran up Broadway for three blocks before he was caught by a policeman.

The pole of the wagon meanwhile had smashed into the \$200 plate glass window of the grocery store and knocked it to smithereens and the other horse was half way down into the cellar, held only by a part of the harness. It was feared that the horse would choke himself, so the harness was cut away and the horse plunged into the cellar. The fail evidently didn't hurt him much, for he raised particular hob with a lot of cases and boxes and cans until the men clambered down the cellar steps and got held of his bridle.

Then came the problem how to get the horse up again. The cellar stairs were too steep for him to climb, so after due deliberation and a long consultation with the groceryman, a messenger was sent for a carpenter. He cut down two partitions in order that the animal might climb the easier stairs leading to the rear of the store. Up these stairs the horse went all right. When he got to the top, however, he celebrated by putting his heels into the glass cligar case and smashing it all up.

his heels into the glass cigar case and smashing it all up.

Both horses were taken back to the exchange at last and the wagon, which was practically uninjured, was bailed after them and the alleged Mr. Boycott and Mr. Grand told Groceryman Haller that they'd gottle the bill for damages.

At Mr. Boycott's house in Flushing it was said at 9 o clock last night that he was in bed, but really hadn't been in any accident at all The Sun's informant said over the telephone that somebody must have used Mr. Boycott's name without any right to do so.

# TUNNEL STRIKE HANGS ON.

Unexpected Hitch After a Long Session of the Settlement Committee.

The Settlement Committee of the Central Federated Union and the Rapid Transit contractors failed to reach a definite agreement yesterday, and the strike, or what is left of it. yesterday, and the strike, or what is left of it, is still on. The two committees met in the Grand Union Hotel yesterday forenoon and did not adjourn until 0 o'clock last evening Another conference between the committees will take place this afternoon. In the meantime the strike remains in force, but will not be extended until the result of to-day's conference is known.

None of the members of the committee would say what the hitch was Some of the walking delegates said the trouble was caused by the refusal of two of the contractors to discharge the men who had taken the places of the strikers.

JOHNS HOPKINS' NEW PRESIDENT. Prof. Ira D. Remsen the Trustees' Choice to

BALTIMORE, Md., June 3.-Prof. Ira D Remsen, who since the founding of the Johns Hopkins University in 1876, has occupied the chair of chemistry, will be the future President of this institution to succeed Dr. Daniel C. Gilman, resigned.

This decision was reached by the trustees t a meeting held this afternoon. Dr. Gilman's resignation will take effect this month. Prof. Remsen will enter upon his duties as President at the beginning of the academic year in September.

The new President, whose name was among the first mentioned for the place, would have preferred to remain in charge of the chemistry department, but insistent urging on the part of the members of the board led him to change his mind.

He accepted the place on condition that he be permitted to continue directing the work in the chemical laboratory. Dr. Remsen is popular with the students at the university, and demonstrated his ability as an executive during the year he occupied the President's position while Dr. Gilman was temporarily absent.

Gilman was temporarily absent.

Prof. Remsen was born in New York in 1846. He received his degree of B. A. when 19 years old at the College of the City of New York. Two years later he was made a Doctor of Medicine at the New York College of Physicians and Surgeons. After this he went abroad to study, and in 1870 received the degree of Doctor of Philo-sophy at the University of Göettingen. After serving for a short time as assistant in chemistry at the University of Tuebin gen he returned to America and assumed the professorship of chemistry at Williams College, whence he came to Johns Hop-kins. For his writings Dr. Remsen has the degree of LL. D. from the Columbia College and Princeton University.

#### MONKS WILL GAZE UPON A WOMAN Mrs. J. C. W. Beckham the Second to Ente This Trappist Monastery.

LEXINGTON, Ky., June 3. - The monks at Gethsemane are awaiting with anxious expectation the coming of Mrs. J. C. W. Beckham, the wife of the Chief Executive of the State, who is to visit them to-morrow. She is the second woman ever to enter the walls of this monastery of Trappist monks, the only other woman to enter being the wife of Gov. J. Proctor Knott, Several women will accompany the party to the doors of the lodge, but Mrs. Beck-

At the gate she will be received by twentyfive monks, the abbott, Father O'Breicht at their head. The party will first proceed to the chapel where services will be held. the choir being composed of fifty male voices. The feast will be held at noon and only the products of the farm will be served, in accordance with the rules of the order. No wine will be served, contrary to the usual custom, on account of Mrs. Beckham's aversion to strong drink None of the monks will be allowed speak to Mrs. Beckham. Many of t have not gazed on a woman's face in thirty years, with the single exception of Mrs.

## MRS. NATION ATTACKS APOLLO.

Statue of the Greek God Sans Tronsers Arouse Her Ire at a Kansas City Exhibition

KANSAS CITY, Mo., June 3.-Mrs. Nation cut loose here again this afternoon. It was editors' day at the manufacturers' exhibition of goods made in Kansas City, which has been in progress for a week at Convention Hall. Mrs. Nation came as "editress of the Smashers' Mail."

Mrs. Nation has not been drawing very well. She debated the temperance question with Carl Brown of Coxey Army fame at a local hall last night and there was but \$30

in the house. There is an art gallery in one division of the exposition and Mrs. Nation visited it. She had a hatchet in her hand, borne as sort of "ad" for her paper. About the first work of art she espied was an Apollo statue Apollo had no trousers on and with uplifted hatchet Mrs. Nation made a dash for him. Bystanders saved the marble god, but the next minute Mrs. Nation caught sight of a defenceless water color picture of Pysche in the altogether, and it took two policemen to get the smasher away from this. They arrested her, but recalling the unpleasant experiences of a few weeks ago did not take

er to the station.

Directly she was released Mrs. Nation mounted a platform and addressed a crowd of several thousand on morality and temperance.

# MORGAN'S LATEST GIFT.

The Celebrated Collections of Fabrics That Are to Go to Cooper Union.

Abram S. Hewitt said last evening that he three famous collections of textile fabrics recently purchased in Europe by J. Pierpont Morgan for presentation to the art museum of Cooper Union are the Bodia collection of Barcelona, the Rivas collection of Madrid and the Baron collection of Paris. For some ime Mr. Morgan has been interested in the educational work of Cooper Union, but a cablegram received from him a few days ago was the first intimation the trustees had hat he had decided to make so munificent a gift to the institution

Mr. Hewitt said that the collections which would come into the possession of Cooper Union were far superior to anything in this country and probably equal to any collection

"I cannot speak with any authority," he explained, "as to the value of the three collections, but from what knowledge I have I should think that they are worth between I should think that they are worth between \$50,000 and \$100,000. Their artistic value may be gauged from the fact that the German Government asked the privilege of borrowing six of the specimens in order to copy and photograph them. The request has been granted and the six fabrics in question will subsequently be sent to this country from Berlin through the German legation at Washington. The fabrics acquired by Mr. Morgan form a remarkable group, insamuch as they cover the whole history of as a sure of the whole known in a smuch as they cover the whole history of weaving between the Middle Ages and the arthur and seventh centuries.

sixth and seventh centuries

The gift is in keeping with the spirit which
is nowadays animating the wealthy men of
the world. Within a hundred years from
now, the owners of vast amounts of
will not hoard up their riches or spena
money upon themselves, but will devote it
to the improvement and amelioration of the
condition of their fellows.

The collections bought by Mr. Morgan are
expected to arrive in this country during the
next few weeks, but they will not be exhibited
in the Cooper Union Art Museum until the
fail.

fall.

The forty-second annual exhibition of the work of the Woman's Art School of Cooper Union was opened last night. About six hundred examples of the subjects taught to the students were shown. They included drawing, designing, modelling in clay, painting, decorations and architecture. Several hundred visitors attended the exhibition, during the evening. It will remain open to-night and to-morrow night.

Merchant Brops Dead Calling on a Friend. Garrett M. Van Olinden, a retired mer-

chant of 120 Park place, Brooklyn, fell dead

of heart disease yesterday while calling on his friend, William Scarborough, a produce der at 18 Harrison street, Manhattan. Antedituvian Rye. Aristocratic, old and fine. -Ads.

# MAN'S RIGHT TO LABOR:

A PUNDAMENTAL PRINCIPLE OF LAW. SAYS VICE-CHANCELLOR PITNEY.

### Strikers Trespass Upon Private Rights When They Speak or Try to Argue With Workers Against Their Will -- Declares That the Silk Mill Hands Must Be Protected.

employees of Frank & Dugan's silk mill in Paterson, who are accused of contempt of court in violating an injunction granted by Vice-Chancellor Pitney restraining twentythree of them from interfering with and intimidating employees who want to work, was continued yesterday before the Vice-Chancellor in Chancery Chambers, Jersey

The Vice-Chancellor asked the counsel upon what points, if any, both sides had agreed. Lawyer James B. Blauvelt, who represented the strikers, replied that he wouldn't admit anything, not even that the restraining order had been properly served upon the defendants. The Court ordered Lawyer John W. Harding, counsel for the silk mill owners, to read the affidavits showing that service of the injunction had been made. The lawyer had proceeded as far as the sixth affidavit when the Vice-Chancellor stopped him and asked Mr. Blauvelt what he had to say to that

"We admit that these men were served. remarked the lawyer, whereupon the Court said indignantly: "The counsel must not take up the time of this court like this. What do you mean by saying that you admit service on none of the defendants and then after time has been consumed in reading affidavits you admit that it is true?"

The lawyer simply remarked: "Why should we admit it?" "Because it is true," said the Vice-Chancel

Affidavita were read by Mr. Harding showing that Clements Herald, John Egan, Harry Millerchip and other strikers had insulted Annie Turner and other silk mill hands by sneering at them and annoying them in the streets. The defendant's affidavits con-tained a general denial and the Vice-Chancelor insisted that the allegations should be answered specifically. The Vice-Chancellor said that it was a fundamental principle of law that every person has the right to work

no one has the right to keep another person "One person," he continued, "has no right to speak to another against his will or make it disagreeable for another to work. A person has the same rights in the street as he has in his own home. The rule of law is that an act must be construed as not to in terfere with private rights. The right to influence a man by just argument and persuasion must not be done without that man's consent. You have no more right to cost him on the street against his will than to invade his home for that purpose. These girls are not to be accosted on the street nor to have faces made at them, nor to be pointed out to others and annoyed."

d to protection and the strikers had no business to interfere with the operation of the mills by trying to compel the employees to stop work

### IRISH FLAGS REMOVED AGAIN. Trinity Allows Old-Glory Only - But What Happened to Tom Moore?

The case was adjourned for a week

Members of the Irish societies who were much disturbed by the removal of the Irish flags from graves in St. Paul's churchyard, which were decorated on Memorial Day were further wrought up on Sunday and yesterday upon learning that the flags which were replaced over the graves on Saturday. had been removed again. The Irishmen were not altogether satisfied with the explanation that a rule of the Trinity corporation forbids any flag other than the American in their churchyards or cemeteries.

The belief of some members of the societies that malice was at the bottom of the removal of the flags, was strengthened yesterday when they learned that the flags, and wreath which had been put on Tom Moore's statue in Central Park, had been found yesterday morning on the ground at the foot of the statue Devoted hands replaced these on the statue. There was a brisk little thunder storm on Sunday night which may have done some undecorating

### GEORGE S. WYLIE KILLED. Prominent Morristown Man Struck by Train at Garden City, L. I.

GARDEN CITY, L. I. June 3 -George Wylie, a prominent resident of Morristown. N. J. was killed by a Hempstead train near the station here late last night. The train arrived from Long Island City and stopped at the station It was raining very hard at the time. When Mr. Wylie started to cross the tracks he had his umbrella up and could not see the engine. He was caught under the wheels and his body was so badly crushed that it took over an hour to extri-

cate it
Mr Wylie had dined at the Garden City
Mr Hotel and was on his way to Hempstead
where he was staying His trip to Lona
Island was to find a country place for the
season. He leaves a widow and one child.

### ROBERTS LEAVES THE ERIE? General Passenger Agent's Resignation Said to Have Been Sent In.

St. Paul., Minn., June 3 .- Private advices received by railroad officials here to-day announce the resignation of Duncan I. Roberts, general passenger agent of the Erie road, with headquarters in New York, to road, with headquarters in New York, to become effective July 1. His successor has been decided upon, but the name is being withheld for the present, although he is understood to be an official of the road. Roberts's retirement, as explained by one close to President Underwood, represents the first of a number of important changes which the latter has in mind.

Private Park on 40.000 Acres of John Brown's Tract.

ALBANY, June 3.-The Fenton Game Preserve Association was incorporated to-day o lease or own 40,000 acres of the John to lease or own 40,000 acres of the John Brown tract in Lewis and Herkimer counties, to be maintained as a private park for hunting and fishing purposes and for the recreation of its members. The directors are Arthur Luetchford of Rochester, Sanford E Stanton of Watertown, Pierce D Schenck of Dayton, O.; Eugene L Richards of New Haven, Conn., and Samuel W Skinner of Cincinnati, Ohio.

### MOB DEMANDS A LYNCHING. Man Who Assaulted a Child in McKeesport, Pa.

in Danger of His Life. McKeesport, Pa., June 3.-A howling mob of 5,000 men is gathered about the McKeesport Central police station tonight, demanding the release of Benjamin Fetty, who was arrested at 10 o'clock this morning charged with outraging fourvear-old Mary Sullivan. The mob is de-

termined to drag him from the jail and

lynch him, but lacks leadership for effective

The child is dying. An attempt was made by citizens to lynch Fetty when he was captured, running away from the house, but the police interfered and the plan failed. At 6 o'clock this evening when the day turns at the mills ceased work a mob gathered about the city prison. Once the crowd made a rush and attempted to beat its way in, but was clubbed back by the police. At 10 o'clock Mayor Robert J. Black addressed the crowd, saying that the first man making a break to enter the prison would be killed

Fifty policemen are on guard and the city fire department has been ordered to hold itself in readiness to assist the police. The firemen are in favor of a lynching and have refused.

### PENNSYLVANIA STEEL SOLD? One Report Is That the Cambria Steel Company Will Be in Control.

A story from Philadelphia to the effect that a deal had been closed by which the control of the Pennsylvania Steel Company will be taken over by the United States Steel Corporation was positively denied yesterday by a director of the last named orporation. According to another report the Pennsylvania company has been acquired in the interest of the Cambria Steel Company through a transfer of the Pennsylvania stock that has been in the hands of Drexel & Co. of Philadelphia, the sale being made for the account of the underwriting

### LONELY LIFE MADE HIM CRAZY. F. J. Lascelles, Half-Brother of the Earl of Harewood, Kills His Servant

syndicate.

VANCOUVER, B. C., June 3 .- The Hon. Francis J. Lascelles, son of the fourth Ear of Harewood and a half brother of the preser Farl and a cousin of Sir Frank Lascelles, Ambassador to Germany, is the central figure in a tragedy which cast a gloom over the mining town of Golden, B. C., to-day. Mr. Lascelles has been committed to an asylum as raving manfac.

Lascelles has been for several years ranch ing on Thunder Hill. He was living with two men, John Lambert and Frederick Kimpton, or not to work just as he or she sees fit, but both Canadian farmers. After dinner last night Lascelles went to his room alone and seizing his rifle, shouted to his companions "I will count five and then shoot the first man I see." Both his companions rushed from the house while they heard the loud counting of the madman. The last number was drowned in the report of Lascelles's rifle and his servant fell dead not three feet from them The two men seized their horses and galloped into town. That night a posse of police caught Lascelles unawares and lodged him in the asylum.

The lonely life in the mountains had preyed pon Lascelles's mind. He had money and spent it lavishly on the camp and in public enterprises.

# MRS. M'KINLEY'S CONDITION. He said that the silk mill owners were Her Physicians Report That It Is as Favorable

as Could Be Expected. WASHINGTON, June 3 - Although there is little in the official bulletins given out at the White House to indicate what the condition of Mrs. McKinley is, it is generally understood that there has been no change for the better No information was given this morning as to how the patient passed the night, but the intimation is plain that nothing has occurred within the last twenty-four hours to en-

A fourth physician was called in this mornng. Dr. William Osler of the medical department of Johns Hopkins University, Baltimore He, with Drs. Rixey, Sternberg and Johnston,

courage the friends of the sick woman.

Met of Johns Hopkins Chiversity, Baltimore, He, with Drs. Rixey, Sternberg and Johnston, visited Mrs. McKinley at 10 o'clock and the consultation that followed lasted until 11:15 o'clock, when this bulletin was issued:

"Drs. Rixey, Sternberg and Johnston were Joined by Dr. Osler of Baltimore in consultation at 10 A.M. and report that Mrs. McKinley's condition is as favorable as could be expected. There is no immediate apprehension and a slow improvement is looked for."

The President received only a few callers this morning. Among them was Ambassador Cambon of France, who went to the White House to inquire for Mrs. McKinley's health

### ALDERMAN DOWLING UPSET. He and His Family Tumbled Into Fifth Avenue by a Runaway Cab Horse.

Alderman Frank L. Dowling, his wife and two children started for Calvary Cemetery yesterday afternoon in a surrey and it was run into and overturned by a frightened cab horse in Fifth avenue near Thirty-second street The Alderman was driving and with him on the front seat sat one of his children.

Coming south on Fifth avenue at the time the Alderman and his family were nearing Thirty-second street was a cab driven by William Collins of 23 Bradley street. Long Island City. The cab horse was skittish and the noise made by a dummy engine in an excavation at the Thirty-second street corner caused him to boit. He dashed into the surrey and over went the two-seated vehicle, dumping the Alderman and his family into the roadway.

The Alderman got on his feet quickly and assisted his wife to hers. She was frightened, but unhurt. The frightened cab horse stamped and plunged, and the Alderman's horse got scared, too, and tried to run away with the wrecked surrey. Bicycle Policeman Casey brought him to a stop within a short distance and another cop selzed the cab horse. the Alderman and his family were nearing

Alderman called a cab and he and s were driven home to 257 Ninth ave-

### HUT DWELLER'S SKELETON FOUND Mosher Had Evidently Blown Top of His Head of With Shotgun.

WAVERLY STATION, L. I. June 3 -More han a year ago John Mosher, aged 60 years, who lived in a but in the Waverly blcycle path, went on a gunning trip. He carried an old-fashioned, double-barrelled shotgun the muzzle-loading type, a bag of shot and a pouch of powder. Nothing was seen of him until to-day when Thomas Jones while in the woods came across the skeleton of a man about five hundred yards back from the railroad track. Between the fleshess hands and legs was clasped an old-fashioned shotgun, both barrels of which had been discharged. The skull was gone and the shattered portions of hone showed where the charges of shot had carried it away. and a pouch of powder. Nothing was seen

Mosher's name was on the gun and ar-cles found in the clothing alded in the ientification. It is evident that the old an placed the muzzle of the gun against is head and pulled the triggers with his

# PALISADES' RUIN GOES ON.

PRICE TWO CENTS.

MORE HARMFUL BLASTING BEING DONE THAN EVER BEFORE.

### Contractor Who Gave Option on His Prop erty Is Ripping Up the Cliffs in Alarming Fashion - Commissioner Stauffer

Says "Commission Is Working Slowly."

YONKERS, N. Y., June 3.-People here are wondering what has become of the 600,000 appropriated to stop the stone blasting on the Palisades. The destruction by quarrymen continues, the agitation thus far having resulted in the stopping of only one firm of contractors, the Carpenter Bros., who were carrying on a large quarry near Fort Lee. They have received \$125,000 and have stopped work. The damage they were doing was of little consequence compared with the work still being done by P. H. Galligan in a far more picturesque spot opposite this city.

Mr. Galligan is hard at work with a large force of men ripping out stone and crushing it in his big plant at Boonkey Hook J. The stone which is being blasted is only a short distance north of the famous "Indian head" projection. The extent of the work being done was made evident to hundreds of persons yesterday afternoon when large blocks of rock were tumbled from the extreme height of the cliffs at a point that had heretofore remained unharmed. Yard after yard fell so rapidly and with such a thunderous roar that for a time it seemed as if the entire cliff was about to plunge into the Hudson. Trees and shrubbery were carried down and boatmen in the vicinity rowed for dear life. It is said that so large a mass of rock has never been known to fall

from the cliffs at one time. A gaping hole of red clay now remains

A gaping hole of red clay now remains to mark the spot where existed one of the prettiest cliffs along the river.

Contractor Gailigan, who is a resident of this city, when seen by a reporter and asked why it was that he was still continuing the work replied: "Why not? The property is mine and no one has yet paid me to stop. Sentiment may be all right and scenery and all that, but it doesn't put bread into a man's mouth." Mr Galligan said that no one had been to see him gan said that no one had been to see him in reference to stopping work for six months. The commission had got an option on his property, he said, which ended last De-

"Carpenter Bros. and myself," said Mr. Galligan, "have been the only contractors in the mountains. They have bought Carpenter out and left me alone. There's carpenter out and left me alone. There's good money in this, so I don't care. Send up your photographer in a week or so and I'll show you some scenery. I intend to cut down several hundred feet of rock there this week." Mr. Galligan said that he owned about

twelve acres that had two and a half million yards of stone in them. He thought it would take \$120,000 to make him stop work. D. McNeely Stauffer of the Palisade Com-mission said to-day: "The commission is mission said to-day: "The commission is working slowly at present, having disposed of the most formidable contractors in the persons of Carpenter Bros. We expect soon to open negotiations with Patrick Galligan; the remaining contractor. The commission has \$450,000 left to work on, the \$125,000 contributed by J. Pierpont Morgan having been used in buying off Carpenter Bros. and in paying the amount allowed for the Commissioners."

# PUNISH DERELICT OFFICIALS. Significant Charge by Judge Cowing to the

New Grand Jury. Giles E. Taintor, a broker of 2 Wall street, was sworn in yesterday by Judge Cowing in Part I. of General Sessions Judge Cowing took occasion to emphasize, in reading the statute to the Grand Jury, that section referring to dishonest public officers. He

"You should thoroughly investigate this class of cases and public officers if found derelict in their duty in any respect ought to be brought to the bar and I should be inclined to punish them first They disgrace themselves and hurt the public most public officer who is not honest ought to be punished and you cannot punish him too severely or too quickly."

Judge Cow ng informed the Grand Jury that owing to the activity of Assistant District Attorney Byrne's indictment bureau, only seventy-four prison cases awaited the Grand Jury's action.

District Attorney Philbin said that nothing had been said to Judge Cowing by him concerning his plans to cause the Judge to charge specifically against derelict public officials. Mr. Philbin said, however, that

### he liked the charge. PORTO RICO IS THRIVING.

Secretary Hunt Says the Island Was Never Se Well Off Before.

W. H. Hunt, Secretary of Porto Rico, who arrived yesterday aboard the steamship Ponce, said he had not read the decision of the Supreme Court upholding the Foraker act, and, therefore, did not care to venture an opinion on the subject. He said Porte Rico was in much better condition than it

Rico was in much better condition than it ever had been. The object of his visit is chiefly to see his son, who is at school in Connecticut. For information concerning the little island he referred inquiriers to a fellow voyager by the Ponce, Dr. José C. Barbosa, a native member of the Executive Council of Porto Rico.

Dr. Barbosa speaks English fluently. He is here to attend the commencement exercises of the Ann Arbor Medical College, from which he was graduated in 1880. He said the Hollander act, providing a tax on personal property and real estate and an inheritance tax was generally approved by the Porto Ricans and bid fair to pay all the expenses of the territorial Government. heritance tax was reached to pay an interest the Porto Ricans and bid fair to pay an expenses of the territorial Government. After the accomplishment of this, the doctor said, Porto Rico would ask for the remission of the duty provided by the Foraker a "The Porto Ricans were infinitely etter off under American than Spanish rule. For the privilege of healing the sick, the doctor the privilege of healing the sick, the doctor has been duty pay annually under Spanish

## PERRY TIFFANY DISCHARGED. Overdrew His Account at the Bank. That's All

The complaint against Perry Tiffany of defrauding Essner & Rector, the restauranters, by means of a worthless check was dismissed by Magistrate Pool in the Jefferson Market police court yesterday. Magistrate Pool said

posice court yesterday. Magistrate Pool said that he was satisfed that no criminal intent had existed and Charles E. Rector, the restaurant proprietor, echoed the sentiment. Orin R. Judd, assistant bookkeeper of the Knickerbocker Trust Company, testified that Mr. Histany had a 35 balance with the trust company on Oct. 10, 1899, when Mr. Essner cashed the 25 check for him.

"Because this young man overdrew his account no wrong was committed," said the Magistrate. "Men. particularly young men, frequently overdraw their accounts. I knew of a man in Wall Street who regularly every day overdrew his account, sometimes by as much as \$50,000, but always made good by a o'clock each day. Everybod whee he did it, but nobody knew how to me when the company to a rest for a He had a lot of such checks he was a state of the control of
